

If you are interested in fly fishing (especially in winter), the diets and behaviors of trout, winter-active aquatic insects and their biology, and/or how you can help us on research related to trout.....

Join us for a free workshop and informational demonstrations!

WHEN: Saturday 22 February 2020 from 1:00-4:30 PM

WHERE: Room 480 Hodson Hall, ([PARKING: southwest of Hodson Hall](#))
Saint Paul Campus,
University of Minnesota

WHAT: Lectures, demonstrations of live aquatic insects, information about becoming a Citizen Volunteer

WHO: This workshop will be co-conducted by members of our research group.

Presenters & Topics are:

[Dr. Bruce Vondracek](#)--- Fly fishing for trout in winter

[Dr. Amy Schrank](#)--- Trout movements & behavior

[Dr. Dean Hansen](#) --- Owner of *Wet Bugs*, demonstration of live aquatic insects; flies to match winter hatch

[Dr. Rebecca Swenson](#) --- Citizen Volunteers and how to become involved

[Dr. Troy McKay](#) --- Documenting winter research with digital media, and how to become involved

[Dr. Len Ferrington](#) --- Kinds and biologies of winter growing and emerging aquatic insects
